PERSONAL PROJECTS

Portfolio Website - www.anisaj.tech

- Deployment Of Website
  - Created the application with HTML and CSS. All pages were created timely and always being updated to reflect my ever growing knowledge and career path.
  - Allows any employer to download my up to date resume without needing to go directly to me. It shows About Me, Contact Me, and any Projects I have done. All pages created with over 30 lines of code.
  - This allows an increase in people to learn more information about me, to showcase my skills and allow any future employers to get a better grasp of the person I am.
  - Deployment using Github and Netify, with my own personal domain.
